

✿ The Value of Home Learning ✿

Grow . Flourish . Fly

At Longwick School, Home Learning includes:

- ✦ Weekly practice – reading, maths, spelling
 - ✦ Independent or shared creative tasks, English, Science, STEM, History, Geography, Art and Design and other practical activities which may include research, trips and visits and investigations
-

Together these:

- 🔍 spark curiosity and creativity
 - 🌱 build confidence and motivation
 - li>• 📚 strengthen key skills for learning
 - 🏠 give families special time working together
-

Most importantly, they encourage, build and deepen our school values of:

- ? **Curiosity**
 - 💪 **Perseverance**
 - 🤝 **Respect**
 - ✅ **Responsibility**
-

🎯 Home Learning at our school is about making learning -

Meaningful, Memorable and Fun!

Home learning does not necessarily mean completing worksheets. Time spent with family visiting places, creating together, practising together, reading together and learning together are all very important aspects of home learning.

Children's efforts may be celebrated through class sharing, displays and assemblies to recognise their creativity and hard work.
